USB Smart Charge Technology

This product is equipped with USB Smart Charge Technology. The built-in "smart chip" can recognize the power output level of your chosen USB charging device. Charge times will vary between charging devices. Charging from a wall outlet with a USB adapter may be faster than charging from a USB port on a computer. Using Advanced USB Power Delivery, the smart chip will charge the vehicle's internal battery at the fastest speed allowed by your charging device.

Charging the Vehicle

This vehicle is equipped with an internal Lithium-Ion battery that is recharged via USB. ON/OFF Switch must be in the OFF position prior to charging.

- 1. Locate the ON/OFF switch and USB cord on the under-side of the vehicle.
- 2. Turn the ON/OFF switch to the "OFF" position.
- 3. Slide open Storage Compartment cover.
- 4. Remove USB cable from the Storage Compartment. (Use care when extending cord as it is attached to inside internal battery). Cord can be plugged into any computer or USB outlet adapter (not included).

 While charging, the LED under the vehicle will be on. Once fully charged the LED will turn off. Charging is completed in approximately 1 - 1.5 hours depending on the type of charging device you use. Return cord and secure storage lid before operating the vehicle. Note:

Vehicle

Features and Functions

* If vehicle pulls to the left or right during forward driving the Wheel Alignment may need to be adjusted. The Wheel Alignment Dial is located on bottom of chassis between the front wheels.

Install Flags

Insert flags to top rear left and right side.

Transmitter

Battery Installation

- $\ensuremath{\mathsf{1}}$. Press and slide in the direction of the arrow open battery compartment cover.
- 2. Insert 2 "AA" size batteries.
- Make sure the positive (+) and negative (–) markings on the batteries match the markings inside the Battery Compartment.
- 3. Replace the Battery Compartment Cover making certain that the Compartment tab has "snapped" into the locked position.

When replacing Transmitter batteries: Do not mix old and new batteries. Do not mix alkaline, standard or rechargeable batteries. Use alkaline batteries only.
